

# FERODO™

For Harley Davidson motorcycles, see end of list.

Smooth braking performance & ultimate disc balance. Feature anticorrosion and wear-resistance properties and meet or exceed original equipment requirements.

### R - Standard One Piece Disc

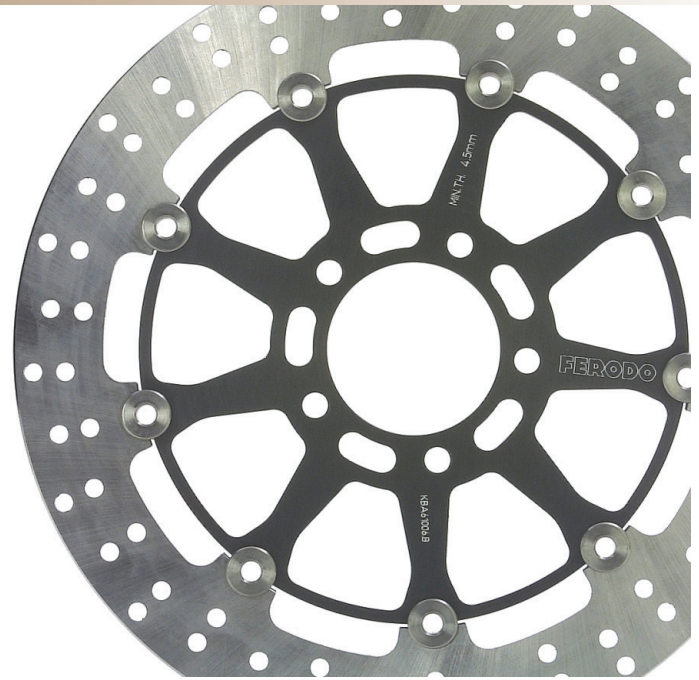

Manufactured with a laser-cut, heat-treated, high-carbon stainless steel that is capable to provide: a higher friction coefficient, increased strength, improved wear for both disc and brake pad while lightening the weight.

### RX - Full Floating Disc with Alloy Carrier

Manufactured with a laser cut, heat treated, high carbon stainless steel that is capable to provide a higher friction coefficient, an increased strength, improved wear for both disc and brake pad while lightening the weight. Designed to eliminate warping from overheating.

### RF - Full Floating Disc with Steel Carrier

Manufactured with a laser-cut, heat-treated, high-carbon stainless steel that is capable to provide: a higher friction coefficient, an increased strength, improved wear for both disc and brake pad while lightening the weight. Designed to eliminate warping from overheating.

Manufactured with a laser-cut, heat-treated, high-carbon stainless steel that is capable to provide a higher friction coefficient, an increased strength, improved wear for both disc and brake pad while lightening the weight.

RP Discs - Standard, one-piece disc for Harley-Davidson® with additional "polished" treatment providing the high aspect required for a custom bike.

RPF Discs - Floating disc with steel carrier for Harley-Davidson® with additional "polished" treatment providing the high aspect required for a custom bike. Designed to achieve minimum "warping".
